

Duty Of Care

I have a right to know my rights,
And be informed about decisions.
With a person-centred point of view,
You'll truly see my vision.

I have a right to a choice,
On how I am best supported.
Someone to help me there,
And make sure concerns are reported.

On the stage of life,
Dignity must play a leading role.
It's my life,
It's important that I feel I am in control.

If I don't recognise faces,
Or if there is anything I don't understand.
I'd take comfort in the fact,
That I know I am in safe hands.

I can do something for myself,
My struggles you might not always be
aware,
It's all about being listened to,
This is what we mean by Duty of care.
